

Data collected by recorder 2:

Time collected from the video

Participant 1:

Time of finishing the tutorial: 4:05 minutes - 5:40 minutes

Time from finishing the first tutorial to find the Hunt game:

5:50 minutes - 7:00 minutes:

He was trying some commands in settings, swipe left, swipe right, and scroll up/down to turn up/down the volume, return. Generally make sense.

7:00 minutes - 8:20 minutes:

He started slot machine game, and played for 1 minute and 20 seconds. So we reminded him that it was not the game we asked.

8:50 minutes - 9:15 minutes:

He tried the corner function; around 20s later; he found the return function.

9:15 minutes - 9:40 minutes:

He found the hunt game.

Time of playing hunt game:

9:40 minutes - 13:30 minutes:

He finished playing the game.

13:40 minutes - 16:20 minutes:

He was playing the game in tutorial, seem having fun and getting used to the game until we stopped him.

Data:

1. Interviewer found the tutorial of the first game, but not the navigation tutorial we asked.
2. Interviewer got a basic understanding after the tutorial and try different gestures in settings. he learned it quickly.
3. Instead of playing the game we asked, Interviewer played another game, no problem for him to swipe right/left. Certainly he found the tutorial of this game, but he skips it and went directly to play the game.
4. After playing the wrong game, interviewer forgot the position of return function, but he remembered it was at the corner, so he tried the different corner of the screen, and found it in 20s.
5. After the interviewer found the hunt game, he didn't swipe right for tutorial and started the game directly.
6. He scrolled down first after he finished the introduction of hunt game, but didn't hold his finger on screen.
7. He might have some troubles finding the target and shoot the arrow.
8. After the game was over, he used return function directly and listened to the tutorial of this game.
9. During the game, he scrolled down to start a new round, but didn't hold his finger on it, sometimes it would shoot an arrow by mistake because of this action.

10. Sometimes he crossed screen edge by mistake; it would also shoot an arrow.
It happened a lot.

Questions:

How do you find the game?

He explained very well on how to operate the game.

He doesn't know why he miss the target. (He crossed the screen edge...)

Some part enjoyable and fun?

He said the process of finding the game is interesting.

He asked to open his eyes and played the game, more enjoyable with eyes covered.

Participant 2:

Time of finishing the tutorial: 1:58 minutes - 4:20 minutes

Time from finishing the first tutorial to find the Hunt game:

4:30 minutes - 5:20 minutes

He entered the slot machine game at first and quit the game.

After he got to the swiping direction, he found the game.

Time of playing hunt game:

5:20 minutes - 7:40 minutes:

He found the game and played it quite well.

Data:

1. We lead the interviewer to the tutorial.
2. He scrolled down the menu of Android System during the tutorial.
3. He was tapping the screen edge during the tutorial.
4. He kept swiping the opposite direction. After many attempts, he swiped the write direction.
5. He entered the hunt game without the tutorial.
6. He knew how to play the game and how to shoot the arrow.
7. When the game was over, he asked if stopped.

Questions:

How do you find the game?

Confuse at first, followed the voice to find the game.

Some part hard?

Difficult to tell the high frequency to shoot.

Some part enjoyable and fun?

Fun game.(not much to talk)

Participant 3:

Time of finishing the tutorial: 1:30 minutes - 2:15 minutes

Time from finishing the first tutorial to find the Hunt game:

2.15 minutes - 3:30 minutes:

He was playing slot machine game.

3:30 minutes -6:00 minutes

We reminded him that he was in the wrong game, and he asked how to return to game menu, and we taught him how to use the return function. He entered the slot machine game.

6:00 minutes -6:10 minutes

We helped him to the hunt game.

Time of playing hunt game:

6:10 minutes -7:25 minutes

He finished playing the game.

Data:

1. We lead the interviewer to the tutorial.
2. Use several fingers to swipe and tap the screen.
3. Interviewers seems having troubles in navigation function.
4. He crossed the screen edge and the target was missed.
5. We asked him to restart the game when the game was over, he doesn't know what to do next.

Questions:

What do you think of the app?

Confuse, doesn't know how to play it.

Hints not clear, doesn't know how to shoot the target.

Some part difficult?

Very difficult to control.

Participant 4:

Time of finishing the tutorial: 3:00 minutes - 4:20 minutes

Tutorial for the second time:4:40 minutes - 7:10 minutes

Time from finishing the first tutorial to find the Hunt game:

7:00 minutes - 8:00 minutes:

He went back to the tutorial.

8:00 minutes -8:30 minutes:

We explained how to swipe and helped him to find the hunt game.

Time of playing hunt game:

8:45 minutes -9:30 minutes:

He didn't know how to play so we helped him to the tutorial first.

9:45 minutes - 10:30 minutes:

Listened to the tutorial.

10:50 minutes -14:00 minutes:

Playing hunt game, not bad.

Data:

1. We remind him of the edge of the screen.
2. We guide him to the tutorial.
3. Interviewer scrolled down the menu of android system.
4. He tried to touch different area of the screen.
